# AIR FŌM

Insert Sizing Gauge Set; 4, 5, 6, 6-W, 7, 7-W 8, 9, 10

Bead "Gate"

If bead of tire can be inserted completely into bead gate then the insert is the correct size

Correct fit !

1. Tire is tight around the Gauge

2. Bead inserts into the gate

Insert is too small

1. Tire beads too close

2. Bead misses the gate

Insert is too big !

1. Tire beads below gate, cannot fit in

2. Beads too far apart
